

2010 -2011 Annual Report

Report from the Director

It was a great year because Friendship with Cambodia was able to help more people than ever Cambodia. Our women's empowerment program reached over 4000 women this year with savings programs and education. One of the outcomes that made me especially happy was the incidence of domestic violence was dramatically reduced. It is also wonderful to see women finding their voices, after centuries of silence, and now taking a leadership role in addressing problems in their communities.

Another rewarding outcome this year was to see more of our sponsored students graduate from university and get jobs in their fields. Many of them are serving their country as teachers and humanitarian aid workers. If you saw your own child, niece, or nephew graduate from college, then you have some idea of how proud we are of these young people. They really worked hard to get to this point, overcoming the challenges of rural poverty and a culture that does not encourage higher education. Only 6% of the students in Cambodia finish high school.

Friendship with Cambodia is lucky to have many talented and committed volunteers. Karen Molleson and Linda Young both worked half-time for Friendship with Cambodia, running the departments of Student Sponsorship and Fair-Trade Crafts, respectively. It is through their skill and dedication that we have successful programs and are able to keep our administrative costs down so that we can send more of our donors' contributions directly to Cambodia.

My heartfelt thanks to all of our volunteers and donors. You make our work possible!
