

Responsible Travel Cambodia - Update for Phnom Penh - February 2024

Restaurants, Hotels, Craft Shops, Spas, and Eco-Shops - By supporting the businesses listed below, you can use your tourist dollars to help local people and the environment.

Each business incorporates aspects of responsible tourism such as employing graduates from training programs that help at-risk women, the disabled, or people living in poverty. Have policies against sex-tourism and child trafficking, practices that protect the environment, support fair-trade, and/or are social enterprises or humanitarian NGOs (non-governmental organizations).
